## Religious Meetings Nearing Close.

The evangelistic meetings being held in the opera house this week under the direction of Dr. W. W. Orr have been drawing large crowds nightly. The afternoon meetings have been equally as well attended and a the entire community has become interested.

Last Sabbath morning the house was filled when Dr. Orr preached on "What Every Man Can Do For His Fellowmen. If He Will". In the afternoon a special meeting was held for men, his subject being "The Devil's Detective" from the text "Be sure your sin will find you out". The evening meeting Dr. Orr used as his subject, "The Plan of Salvation Simplified". At this meeting eighteen persons accepted Christ as their Saviour.

More than one-hundred-fifty persons have professed Christ up to the present time. The meetings have resulted in a great religious revival, both to those within and out of the church. Sabbath afternoon a sermon will be delivered by Dr. Orr on "The American Home." The meetings close Sabbath evening.

### Joyous Philosophy.

Let us learn to be content with what we have. Let us get rid of our false estimations, set up all the higher ideals—a quiet home, a few books full of the inspiration of a genius; a few friends worthy of being loved, and able to love us in return; a simple religion full of trust and hope and love—and to such a philosophy this world will give us all the empty joy it has. —David Swing.

### How Vice Works.

Before vice can fasten on a man, body, mind or moral nature must be debilitated. The monster and fiend gather on sickly trees, not thriving ones; and the odious parasites which fasten on the human frame choose that which is already enfeebled. —Excuses.

## LIVE STOCK EXPOSITION.

These combined exhibitions which take place at the Union Stock Yards, Chicago, on the dates of November 22 to December 3rd, inclusive, bring together the greatest aggregation of live stock that can be produced in any country in the world. The horse show this year occupies the dates of November 22, 23, 24, 25, and 26 and the Live Stock Exposition, commencing on the same day that the horse show is brought to an end and extending to December 3rd, gives exhibitors at both, as well as the general public an opportunity of witnessing these two extraordinary exhibitions without extra expense or loss of time.

Chicago, as the greatest live stock market of the world, during the dates of these shows, is the most interesting place on this continent to visit while the International Live Stock Exposition is in progress, for not only does it bring together by far the greatest number of cattle, sheep, swine and horses that could possibly be accumulated anywhere else, but it reveals the finest specimens of every breed represented, as well as all the champions of the respective domesticated animals. By attending this exhibition the breeder, feeder, stockman and farmer, as well as others who are interested in the live stock industry, can obtain more information and practical knowledge of live stock during the thirteen days of its continuance than is possible for us to obtain in any other way.

The most renowned judges from the old country, and the most expert in this, come together for the purpose of displaying the combined talents of both, and pronouncing judgment upon the various classes, that is supreme and beyond appeal. The ordinary breeder has his ideas in regard to live stock, but when he stands near and sees the various classes pronounced upon by the best judges and greatest experts the world can produce, and is able to ascertain upon the spot why such a judgment should be returned, he will be the first to acknowledge wherein he has failed on so many occasions, and how easy it is for him to make amends, and turn failure into success of most pronounced form, redeem the ground he has lost and make amends in the future that will not only make his name as a breeder famous but lengthen his bank account that hitherto seemed impossible.

A pound of practice is worth a ton of theory, and in no industry can this be turned into more gratifying results than it can in the live stock world. The breeder living some distance from Chicago may say, "I do not see how I can afford the expense, much as I should like to make the trip and greatly as I feel its need." Let the good fellow cut down expenses in some other direction and attend the show at all hazards, for it will pay him, and pay him doubly and trebly, for he will go back, not only full of enthusiasm but with a practical working knowledge in his head whereby he can right the wrongs of former methods and start off the straight road to success.

## THEATRE NOTES.

One of the best known and popular plays of recent years, "The Virginian" will be at the Fairbanks Theatre, Springfield, on Wednesday, November 18th. The play is based on the book of the same name, that has been widely read and a great favorite with all readers of fiction. It deals with the life of a Vermont teacher who went into the far West to teach school and his unique experience with the "Westerners" with whom she comes in contact make an unusually interesting story. The play follows the story closely and has always drawn large audiences wherever booked. Those who have not seen it heretofore will be all the more anxious since this is undoubtedly the last year it will be on the road.
